

HPE OfficeConnect 1410 Switch Series

Product overview

HPE OfficeConnect 1410 Switch Series comprises unmanaged Gigabit Ethernet and Fast Ethernet switches, designed for small businesses looking for entry-level low-cost networking solutions that come with a limited lifetime warranty. The series consists of nine models with flexible mounting options to meet different network switching needs. All models have quality of service (QoS) support and IEEE 802.3x flow control features that provide outstanding data efficiency.

Simplified plug-and-play convenience is enabled by features such as auto-MDIX and auto-speed negotiation. Hewlett Packard Enterprise has innovated and combined the latest advances in silicon technology to bring you some of the most power-efficient switches—1410 24G R, 1410 16 and 1410 24 models. are advanced IEEE 802.3az-compliant unmanaged Gigabit and Fast Ethernet switches. The switches come with built-in green features and HPE Limited Lifetime Warranty, making the series the right choice for organizations seeking a networking solution that's both economical and reliable.

A summary of the highlights of the 1410 Switch Series:

- Unmanaged Gigabit Ethernet and Fast Ethernet switches
- Green features for low power consumption
- Fan-less design for silent operation
- QoS support
- Limited Lifetime warranty

Features and benefits

QoS

- IEEE 802.1p prioritization

Delivers data to devices, based on the priority and type of traffic

- DiffServ Code Point (DSCP) support

Allows real-time traffic prioritization, based on L3 TOS/DSCP parameters

Connectivity

- Auto-MDIX

Provides automatic adjustments for straight-through or crossover cables on all 10/100 and 10/100/1000 ports

Performance

- **NEW** Energy-efficient Ethernet support

Supports new IEEE 802.3az standard; and allows lower power consumption, when operated with IEEE-compliant client devices in 100 Mb/s mode only (JG708A, J9662A, and J9663A)

- Half-/full-duplex auto-negotiating capability on every port

Doubles the throughput of every port

- **NEW** Jumbo frame support

Allows frames up to 9,216 bytes to be switched through the network (Gigabit Ethernet models)

- Mini jumbo-frame support

Allows frames up to 2,048 bytes to be switched through the network, which supports large data transfers (J9662A and J9663A)

Ease of use

- Unmanaged

Provides plug-and-play simplicity

- Comprehensive LED display with per-port indicators

Provides an at-a-glance view of the status, activity, speed, and full-duplex operation of the switches

- Flow control

Helps ensure reliable communications during full-duplex operation

- Auto-speed negotiation

Selects individual port speed automatically, depending on client capabilities; removing the need for manual intervention enables simple plug-and-play operation

Flexibility

- Fan-less design

Enables quiet operation for deployment in open spaces

- **NEW** Internal power supply

Delivers operational convenience and an environment suitable for business operations (JG708A, J9561A, and JD986B)

Warranty and support

- Limited Lifetime Warranty

- HPE OfficeConnect 1410 Switch Series includes a Limited Lifetime Warranty. This warranty provides advance hardware replacement with next business day shipment in most countries, limited 24x7 telephone support available from HPE for the first 90 days, and limited electronic and business hours telephone support is available from HPE for the entire warranty period.

See [hpe.com/networking/warrantysummary](https://www.hpe.com/networking/warrantysummary) for warranty and support information included with your product purchase.

	Notes: Maximum power rating and maximum heat dissipation are the worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic, all ports plugged in, and all modules populated. The exact input voltage and frequency rating are determined by the specific power adaptor part number ordered. Please select the correct power adaptor country option.
